AGES
People-Planet-Prosperity Learning Cohort
Cheat Sheet for Advisors

What is AGES?

This stands for Anthropology, Geoscience, and Environmental Sustainability. These fields study aspects of humans and our environment from different perspectives with different but complementary tools and techniques. By taking introductory courses in all three areas, students will develop a broad and rich understanding of these fields.

What is the People-Planet-Prosperity Learning Cohort?

The Learning Cohort is a group of students who will take three courses together during a single semester. During fall 2022 the cohort will take three LAC courses together in the fall: ANT 110 Introduction to Cultural Anthropology, GEOL 100 General Geology, and ENST 100 Introduction to Environmental Studies. The goal of the cohort is to build friendships and community support as you connect your major or career goals to helping society and the earth while fulfilling required Liberal Arts Curriculum (LAC) credits in three separate areas.

Example Explanation For Students: This Learning Cohort is a group of 24 students who all sign up for the same 3 classes. This means you'll start college with folks who have a similar schedule and similar interests. Our team will also have extra advising, support, and fun events that fit into your schedules for the whole group to participate. This is a great way to make new friends, get connected, and work with dedicated faculty who are excited to help you and have you join our UNC community

Participation in the cohort provides you with access to advising and mentorship from dedicated peers and faculty ready to help you navigate the transition to college and be successful in your career development. Cohort members will also have special access to workshops, field trips, and other activities designed to build community and knowledge, and build friendship and mentoring relationships.

What is the schedule?
Here are our three classes and the schedule. We also include an image of the schedule below and a link to a google sheet if you want to work on your other classes:
https://tinyurl.com/AGESFall2022

ANTH 110-004 Introduction to Cultural Anthropology

- CRN 12343
- 3 Credits
- LAC Requirement: Social and Behavioral Sciences - Human Behavior and Social Systems LAB3
- US Multicultural Studies and International Studies Requirement: International Studies IS
- Meets Tuesday & Thursday 3:30pm-4:45pm

ENST 100-002 Introduction to Environmental Studies

- CRN: 12698
- 3 Credits
- LAC Requirement: Physical and Life Sciences LAS1
- Meets Monday, Wednesday, and Friday 11:15am - 12:05pm

GEOL 100-003 Introduction to Geology & GEOL 100L-105 Geology Lab

- CRN Lecture:10116
- CRN Lab: 10119
- 4 Credits
- LAC Requirement:Science Lab Course LASL
- Lecture meets Monday, Wednesday, and Friday 9:05-9:55
- Lab meets Tuesday 12:30pm - 2:25pm

SCHEDULE: Fall 2022

	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
8:00 AM					
8:30 AM					
9:00 AM	GEOL 100 Lecture 9:05-9:55		GEOL 100 Lecture 9:05-9:55		GEOL 100 Lecture 9:05-9:55
9:30 AM					
10:00 AM					
10:30 AM					
11:00 AM	ENST 100 Lecture 11:15-12:05		ENST 100 Lecture 11:15-12:05		ENST 100 Lecture 11:15-12:05
11:30 AM					
12:00 PM					
12:30 PM		GEOL 100 LAB 12:30-2:25			
1:00 PM					
1:30 PM					
2:00 PM					
2:30 PM					
3:00 PM					
3:30 PM		ANTH 110 Lecture 3:30-4:45		ANTH 110 Lecture 3:30-4:45	
4:00 PM					
4:30 PM					
5:00 PM					

Who can join the Learning Cohort?

This Learning Cohort is designed for incoming freshmen and transfer students of any major (including exploring students!), but space is limited. To learn more, ask questions, and sign up, visit this url: http://tinyurl.com/AGESsignup Participants must commit to taking the cohort -assigned sections of ANT 110, GEOL 100, and ENST 100 during fall 2022. The registrar has these sections linked and can sign you up for all three simultaneously so you don't mistakenly get into a non-cohort section.

How does this fit into my Academic Plan?
These classes equal 10 credits, so you will also need to select a Freshman Composition (ENG 122) class and we also recommend an introductory course in your major. If you have questions about how these courses will fit into your academic plan, please feel free to email the AGES team at ages@unco.edu. We also recommend reaching out to your advising center with major specific questions:
https://www.unco.edu/student-academic-success/academic-advising/whos-my-advisor/

How do I sign up?
Just fill out the 5 simple questions on this qualtrics survey and we'll get you set up with the program.
http://tinyurl.com/AGESsignup

- Advisors: These are forced enrollments that Debbie Lewis in the HSS Dean's office will handle.

Can I still participate in the cohort if I've already earned credit for one of the courses, e.g. ENST 100? OR If a student's schedule allows them to take 2/3 courses, but scheduling conflicts arise, can they still participate?

For this pilot study, we'll keep them in the cohort as long as they are registered for 2 courses

Who can I talk to for more information?

If you have questions about this program, please feel free to email the AGES team at ages@unco.ed or contact one of our AGES advisors:

- Dr. Sharon Bywater-Reyes (Geology): Sharon.BywaterReyes@unco.edu
- Dr. Andy Creekmore (Anthropology): Andrew.Creekmore@unco.edu
- Dr. Chelsie Romulo (Environmental Studies): Chelsie.Romulo@unco.edu
