A Journey Through the AGES

(Anthropology, Geoscience, Environmental Sustainability)

People Planet Prosperity

LEARNING COHORT

Complete Graduation Requirements

Together we will embark on a journey across the AGES (Anthropology, Geoscience, and Environmental Sustainability) while simultaneously completing three Liberal Arts Curriculum (LAC) requirements, which are the general education courses that every UNC student has to take as part of graduation requirements.

Join Other Incoming Students

This learning cohort is a group of 24 students who all sign up for the same 3 courses. This means you'll start your college career with folks who have a similar schedule and similar interests! All majors are welcome to join!

Work with Dedicated Faculty

Our team will also have extra advising, support, and fun events that fit into your schedule for the whole group to participate in!
