

We are excited to announce that Dining Services has partnered with several local food trucks to provide exciting new services here on campus! We have finalized procedures for booking these campus partners, and we wanted to share that information with you.

After vetting many food trucks in this area, we have finalized an Approved Food Truck Vendor List. There are 15 different options to choose from with a variety of themes and dishes offered. The contact information for these approved vendors can be found on the next page.

All events requesting to bring a food truck to campus must first work with Conference & Event Services, as they are experienced coordinators and can help you work through the process. They can be reached at 970-351-2558 or event.services@unco.edu. You must contact Conference & Event Services prior to reaching out to food truck vendors.

Once you have begun working with Conference & Event Services to set up your event, you will need to contact one of the approved vendors directly to book them. The agreement and booking arrangements will be negotiated between you and the food truck vendor directly. You will need to have a University Services Agreement contract in place with the chosen food truck vendor. Please work with Purchasing & Contracts to complete the steps for the University Services Agreement.

All groups booking events on campus may still be required to submit various other permits, including the Outdoor Event Permit, depending on the complexity of the event. These forms are available from and submitted to the Conference & Event Services office.

If you have any questions regarding this policy or need any further information, please reach out to Ryan Virgil, Retail Operations Manager, at ryan.virgil@sodexo.com or Ashley Leggewie, Assistant Director of Conference & Event Services, at ashley.leggewie.unco.edu.

Thank you & happy eating!
UNC Dining Services and UNC Conference & Event Services

2022-2023 UNC Food Truck Vendor Contact Information
